

HOW TO BIND YOUR COPY OF THE WILD PANSY PRESS BOOK OF RAINY DAY ACTIVITIES

1 Make sure you have all four of the sheets necessary to complete the book.

2 Once you have these, carefully fold each sheet along the three perforated horizontal lines to form a concertina 'Λ' shape.

3 Lay each folded poster on a flat surface making sure that there are three large dots running vertically down the centre of the spread – if not, you either need to turn the poster over or you've folded it inside out!

4 Making sure that the two 'peaks of the 'Λ' are at the top of the spread, fold the spread in half applying pressure with your thumb or finger nail to make a clean, sharp crease. The three dots should now be running down the centre fold on the inside of the 'section'.

5 Slit the pages with a ruler or similar implement along the perforations on the folds.

6 Now, making sure all sections are the same way up, place section 2 inside section 1, 3 inside 2 etc... Fold down the centre line where the dots are.

7 Using a needle and strong thread, sew through the central holes of all four sections continuing in a figure of '8' through the two end holes until you come back to the centre where you feed the needle under the and tie off with a double knot or, use a postman's red elastic band to hold the pages together.
